BAUHAUS, AND CRAFTSMANSHIP: A NEW LOOK AT THE ART OF BUILDING

DACH FORUM invites you to an inspiring discussion on the Bauhaus!

Discover how the timeless principles of this school of building influence contemporary craftsmanship and architecture, especially in the roofing industry. During the discussion, we will address the key questions:

What new opportunities are created by the collaboration between architects and craftsmen?

Can contemporary materials relate to tradition?

How can we better collaborate as architects and craftsmen to create robust, beautiful and modern designs?

Is the Bauhaus ideal - of being an artist and craftsman at the same time - achievable today?

Find out the answers to these questions by visiting our event.
