EKOTECH

# EKOTECH

## THE EXPO OFFERS THE BOOST A BUSINESS NEEDS

The International Environmental Protection and Waste Management Expo EKOTECH - for over 20 years the business-insiders and entrepreneurs, local governments and research&development milieus find the Expo a golden opportunity to learn about cutting-edge equipment, technologies, waste management and segregations trends, technologies for municipal management.

EKOTECH is one of Poland's most important events targeted at the municipal business sector. For years, the Expo has attracted the largest and most prominent domestic and foreign exhibitors as well as industry visitors. EKOTECH has become a traditional place to sign important contracts and agreements. The show is also the business and talk-shop platform, as well as a comprehensive offers presentation arena.

## THE CONFERENCES ABUNDANCE - THE GREAT ASSET

The EKOTECH organisers focus on knowledge sharing and dissemination; thus, the event abounds with conferences targeted at industry specialists as well as local government officials. The consecutive International Waste Management Forum and a panel for the vehicle dismantling stations are to be held within the scope of the Expo. Public administration staff are offered the chance to participate in local governments-targeted meetings. Municipal companies representatives may join health and safety sessions. The EKOTECH tradition includes educational workshops and seminars focused on the proper waste segregation.

# EXPOS SHAPE THE FUTURE OF BUSINESS

Many companies around the world have faced unprecedented challenges in the recent few months. Targi Kielce is here to help your company get back on the right business track and regain its market position.

Targi Kielce is one-stop-shop for the whole industry, the place to enhance the existing business-contacts and find new leads and partners. The recent experience has explicitly demonstrated that no email, telephone or teleconference can replace direct, face-to-face contacts.

Business meetings, an inherent part of expos may build and enhance business relations based on trust.

The economy needs expos - trade shows generate necessary development impulses. Direct meetings result in new ideas and innovations.

Trade fairs offer an ideal tool to evaluate and benchmark a particular industry's standing. Exhibitions provide a perfect opportunity to see, try and test the latest developments, learn about customers' opinions on companies' products. Trade shows give an ideal chance to exchange experiences and expand knowledge.

## THE EVENT YOU CANNOT MISS!

- "I am Eco" workshops, practical waste segregation classes

POLMECANIC group finds the EKOTECH participation the opportunity to present its extensive product portfolio, as well as a way to highlight the company's strong industry position; Polish and foreign markets' presence.

The trade show is also the opportunity to obtain direct feedback about our solutions and business methods. The Expo offers the possibility to contact existing and prospective clients in a face to face meeting, share observations and views on the current situation. EKOTECH is an excellent opportunity to benchmark competitors, talk-shop and discuss new projects and company strategies during the pandemic period.

I hope that the trade fair participation paves the way for broad-scope cooperation not only in our industry but also in related business sectors.

Magdalena Stępień-Majchrowska

The trade fairs are held in the early spring which is also the investment time for various recyclers, waste management bodies and vehicle disassembly stations. This time favours the interest in the recycling machines we put on show.

The trade fair is enhanced with problem-focussed con-

ferences targeted at our main customer groups, hence the additional expo audience. The organisers offer numerous attractions for visitors, e.g. meetings with industry celebrities, competitions which can win attractive prizes, etc.

Grzegorz Romańczyk

EKOTECH

The EKOTECH Environmental Protection and Waste Management Expo is an excellent opportunity to exchange experiences between industry insiders and specialists. EKOTECH is a great place to establish business relations with lots of customers visiting the show.

Kamil Mucha

It is worth exhibiting at the EKOTECH; the trade fair is an essential development tool for companies. We were delighted with the event participation.

We noticed that the Ekotech has been continuously developing and has attracted the increasing number of visitors. That is why we are taking part in the upcoming Expo!

# SAFE EXPO

## - WE CAN DO IT

Safety is of utmost importance today. Extensive exhibition space, extra space between expo stands, meeting areas with special dividers, cutting-edge disinfecting stations make Targi Kielce meetings safe.

Online registration systems for exhibitors, media and visitors

Disinfection gates and contactless temperature measurement

Limited and fully controlled number of event participants

Marked, safe entry zones, 2 m social distance observed

Obligation to cover nose and mouth

Mandatory hands disinfection for everyone - every time one enters the expo centre
