JOIN US FOR THE SECOND EDITION OF THE POLSECURE TRADE FAIR

The event is dedicated to all the services responsible for public security, including those subordinate to the Minister of the Interior and Administration: Police, Border Guard, State Fire Service, as well as the State Protection Service, Prison Service, Internal Security Agency, Polish Financial Supervision Authority.

The POLSECURE offer is also addressed to rescue and emergency agencies such as the Air Rescue Service, Tatra Volunteer Search and Rescue, Water Volunteer Search and Rescue. Other entities involved in the Trade Fair include the Road Transport Inspection Authority, the National Centre for Research and Development, the Government Centre for Security, the National Revenue Administration and local authorities, including municipal guards and security agencies.

POLSECURE Trade Fair's début proved to be very successful. As the representatives of the various services stressed – the success of this event was that it brought together a number of different agencies. The 2022 Trade Fair was co-organised by the National Police Headquarters.

WB GROUP was the strategic partner of the Trade Fair. The 2023 Trade Fair will once again be fully dedicated to public safety and security. The event shall provide an excellent opportunity to see the offer of companies specialising in the production of special equipment, personal protective equipment, rescue equipment, communication systems, and command and control software. POLSECURE is also a golden opportunity to exchange experiences and join discussions about the actual needs of uniformed services.

The Trade Fair has hit the jackpot. I think that in 30 years' time, POLSECURE will be as big as International Defence Industry Exhibition MSPO.
