

## SIAD LaserStar™

SIAD, in collaboration with Targi Kielce, offers STOM exhibitors the opportunity to illustrate the operation of their laser and welding machines, to as to enhance their visibility at the trade fair

At STOM-TOOL 2020, SIAD will be the official supplier of a special “LaserStar™” brand, specially designed for use by the exhibitors, that includes:

- the supply of gases from the LaserStar™ range, for laser applications in high purity and certified for conformity to main manufacture standard
- installation of the connections needed to transfer the gases to the utilisation point
- availability of the necessary flow and pressure control devices
- technical assistance by qualified technicians throughout the event
- advisory service on the most appropriate gas mixture to be used and any problem that may be encountered for cutting and welding application.

SIAD gases will be made available in cylinders, bundles or Eurcylinders equipped with **antipollution residual valve** and made from materials conforming to EC standards on hygiene and safety.

The SIAD Service may be ordered by completing the ad hoc form published on the official website of STOM:

[targikielce.pl/stom-tool](http://targikielce.pl/stom-tool)

in the Exhibitors Area and available on the Exhibitor Manual.

As an alternative, SIAD can be contacted directly by phone  
Tomasz and Adam, or by email:

✉ [tomasz\\_gros@siad.eu](mailto:tomasz_gros@siad.eu)

☎ 519 326 868

✉ [adam\\_hawryliszyn@siad.eu](mailto:adam_hawryliszyn@siad.eu)

☎ 533 553 185

SIAD is one of the most important gas production and supply companies in Europe. In the Metal Fabrication sector SIAD has been a leader for years and is not only a supplier of gases and mixtures for laser and welding uses, it is also a reliable partner that can offer effective, innovative and personalised application solutions, that guarantee absolute safety for the food products.
