

Exhibitors’ opinions

We are very pleased we’ve been able to showcase at this year’s Defence Industry Exhibition. No objections to organi- sation. We are very grateful for the help we have received.

Damian Tendera

This year’s MSPO is fantastic. It’s a chance to see modernized combat helicopters and support units, such as the Chinook which is used by the US Army. This year’s MSPO experience is truly unique.

Terry “TJ” Jamison

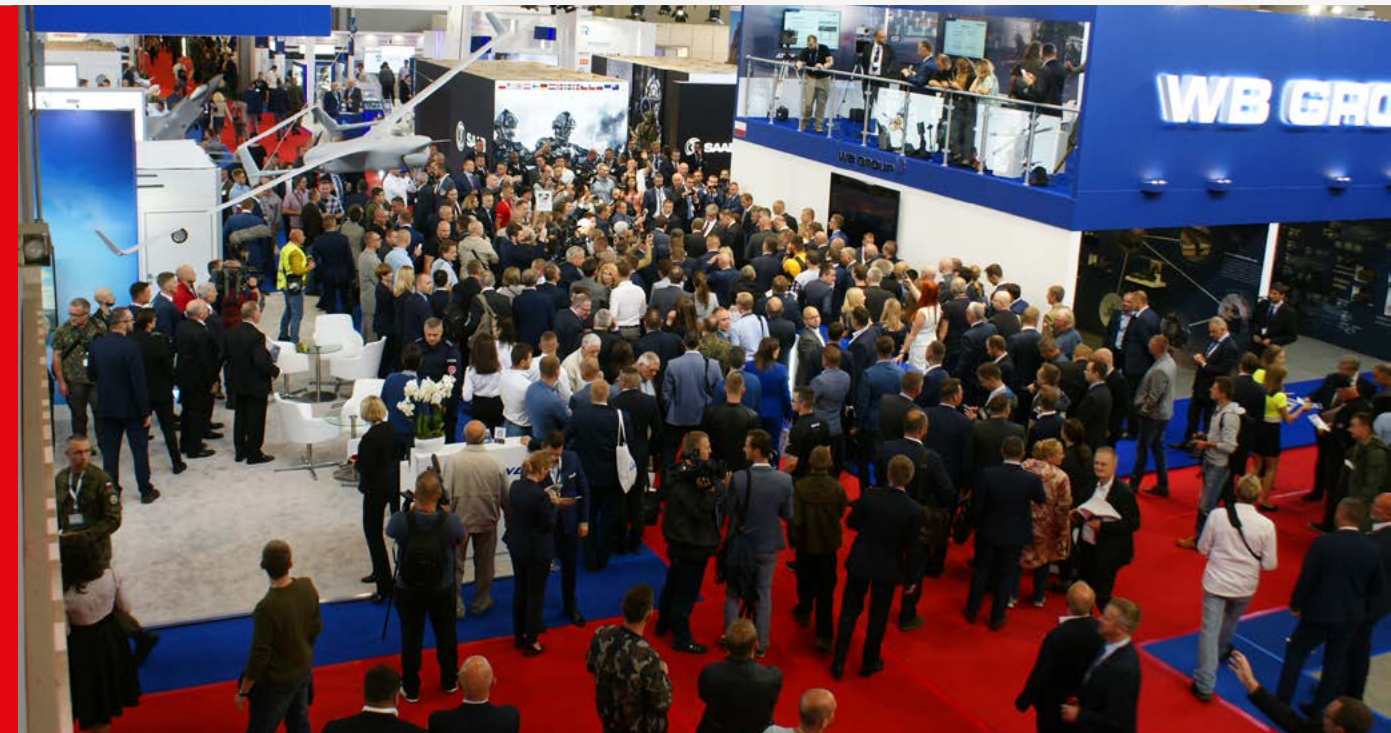

It’s nice to see how the expo has been thriving. Companies return to the expo year after year, they are more and more successful. Considering the close relations between the USA and Poland, the relations with your president, we find the time spent in Poland extremely exciting.

Tom Kallman

We have seen Polish market’s incredible potential, we have had the opportunity to present our portfolio at the expo, boast our potentials and offer products at the local market. This has been a great trade fair so far. We look forward to increasing our pre- sence in Poland.

Petra Horac  
Jeff Sherwood

Why is it worth being a part of MSPO?

- Poland’s only military and defence trade show
- the showcase for the largest armament industry concerns’ comprehensive offer, one stop shop presentation for companies from all corners of the world
- business-insider visitors only - decision-makers responsible for the armed forces and uniformed forces equipment provision
- MSPO hosts numerous foreign delegations - representatives of state authorities, defence ministers as well as delegates of European and global military staffs and embassies

Polish Defence Market

- In 2020 Poland will spend 2.1% of its GDP on defence
- According to the declarations, by 2030 defence budget will have increased up to 2.5% GDP
- The national defence expenditure for 2020 - 48.9 billion PLN (11% increase)

Design your success today. Join us for 2020’s expo!
