STOM Expo returns this spring!

The Targi Kielce's industrial cycle has always been held in spring, and even the pandemic has not thwarted the plan. The only change accepted by both exhibitors and visitors was that the Expo was postponed to a later autumn date. After two years of being a part of "Industrial Autumn", the Expo returns to its traditional spring date; join us already in 2022!

Our feedback related to the Kielce expo? Truly positive, we have been a part of the show for years and we find it one of the best in the industry. This is confirmed by both customers and other exhibitors.

**ANNA ŚWIATAŁA,
DIG ŚWIATAŁA**

I cannot imagine a year without joining a trade fair; however, the Kielce expo comes at the top of our ranking of all the trade fair events. STOM is a must-attend event for us, no questions about it.

**PAWEŁ WAHCHOLC,
PAX**

We have exhibited at the STOM Expo because we find the event essential for us to, especially in pandemic times. Furthermore, we want to mark our presence on the domestic market. As you can see, the trade show attracts customers from all over Poland and outside the country. We have also established relations with contractors from abroad.

**MAREK WOŹNIAK,
SLAVI**

This is the first edition we participate. We are very happy because after 18 months of pandemic we see a huge presence of people and of companies,

At the fairs gathered there are more than 60 Italian companies, showing that the relation and bridges between the two countries are growing

We wish already to come at the next edition and to evaluate the outcome of our presence here

**ALESSANDRO SAGLIO
- GENERAL MANAGER
OF CONFINDUSTRIA
POLONIA**

The series of industrial exhibitions has become a permanent point in many industries' specialists' calendars. The event's popularity made it possible to bring together 500 exhibitors in 7 exhibition halls, despite the pandemic downturn. In addition, the three expo days welcomed almost 10,000 industry visitors - business insiders.

We are truly pleased with the Kielce show; this has been the first such a big and comprehensive expo since the beginning of the pandemic. We hope that next year the show will also repeat its success.

**JOANNA
JUCHA-GIERCZAK,
GM AUTOMATYKA**

Our contacts network has been expanded owing to our expo presence. We held several meetings during the trade fair; what has been discussed here brings tangible results. The orders are delivered next week.

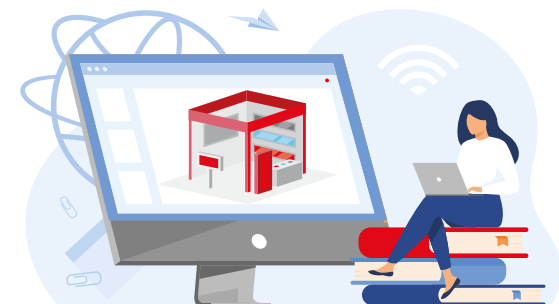

**KAROL NOLI,
THERMAL DYNAMICS**
