- Fascinating machines working live
- Market trends and novelties
- Networking - meetings and business relations enhancement
- Specialised conferences and seminars

Fastening and Fixing Technologies and Components Expo - STOM-FIX returns in March 2023!

The STOM-FIX Fastening and Fixing Technologies and Components Expo has excellently complemented and enhanced the offer of the events series held under the banner of Targi Kielce's industrial cluster. This year the event continues for four days,

as requested by the exhibitors. Almost all exhibitors emphasise that since the end of the pandemic, the opportunity to meet and present their offer "live" is the most essential advantage of the Targi Kielce expo meetings!

#BUSINESS

One-stop-shop for the whole industry!

No email, telephone or teleconference can replace direct, face-to-face contacts.

#NETWORKING

Business meetings, an inherent part of expos, may build and enhance **business relations based on trust.**

#TRENDS

The economy needs expos – trade shows are the inspiration source. Direct meetings result in **new ideas and innovations.**

#EDUCATION

Trade fairs offer an ideal tool to evaluate and benchmark a particular industry's standing. Trade shows give a perfect chance to exchange experiences and expand knowledge.
Expos shape the future of business
