

# CONNECTED SERVICES POOLING

FLEXIBLE AND EFFICIENT

Returnable packaging can be a great way to save environmental and financial resources. However, if not managed well, returnable packaging can be unsustainable. With connected packaging services, we can ensure that there are no blind spots in your supply chain. You can monitor location and events in real-time by adding track & trace functionality to your packaging solutions.

## SECURE SUPPLY CHAIN DELIVERIES

- Nefab has over 20 years of experience within pooling.
- All assets are traceable through our pooling platform enabling efficient planning and fast actions.
- Lower your carbon footprint through reduced pool size and optimized logistics.

## LOWER TOTAL COST

- Through better planning and efficient management our connected services can reduce turnaround time up to 65% and pool size with up to 20%.
- Automatic scanning can reduce handling up to 75%.
- Track and trace solutions can reduce missing items up to 80%.

## FREE UP CASH FLOW

- Flexible ownership provides value for our customers.
- With leasing all services are charged for specific periods.
- With a leasing setup we free up cash flow and let our customers focus on their core business.

WE SAVE RESOURCES IN SUPPLY CHAINS, FOR A BETTER TOMORROW

SAVING RESOURCES

## CONNECTED SERVICES CONTROL DRIVES EFFICIENCY

### Flexibility

Our platform is powered by a variety of IoT networks like Sigfox, LTE Cat-M and NB-IoT, and is able to read any device from any network. With this flexibility, we offer the best user experience to our customers.

### Control

Connectivity provides full control and visibility, which allows customers to manage, monitor, and control return flows optimally. Know the location and condition of your assets at any time, from any device.

### Sustainability

By tracking returnable assets, we plan for service and maintenance of the packaging. This increases the lifetime of the packaging, leading to less environmental impact and financial savings.

We save environmental and financial resources by optimizing supply chains. It's about innovating together to create smarter packaging and logistics solutions while always respecting people and ethical standards. This contributes to a better tomorrow for our customers, for society and for the environment.
