UKRTAC

Made in Ukraine

UKRAINIAN PRODUCTION OF MEANS OF PERSONAL PROTECTION AND AMMUNITION ACCORDING TO WORLD STANDARDS

OUR ADVANTAGES

- Own production of full circle
- Unsurpassed quality
- Social responsibility
- Created and working in war mode
- Constant expansion and development compliance with international standards speed of action: from idea to implementation

UKRTAC WAS BORN IN THE MIDDLE OF THE WAR

- From day one, we have been working in war mode, constant expansion and development is also a requirement of wartime. Reliable protection and high-quality ammunition are needed right now, immediately, every day!

- We find the latest technological solutions and create a product of the highest quality according to world standards.
- It is the own production of the full cycle that allows for prompt execution state and specialized orders for any needs.
- UKRTAC is open to cooperation and new ideas. We are flexible and mobile. Able to implement the boldest decisions in the field of defense and ammunition.
- Today, UKRTAC is a Ukrainian manufacturer of advanced personal protective equipment and ammunition. We are a socially responsible brand - we have created workplaces with official employment for 100+ specialists.
- We are trusted by professional soldiers, special forces fighters and private individuals defending our country.
- The UKRTAC company has no equals on the domestic market. We are already recognized in the world. UKRTAC products were presented at the international defense exhibition MSPO in Poland.

UKRTAC products save lives - proven in practice in the most difficult combat conditions!

UKRTAC has two production lines:

1. Body armor, armor kits and other military ammunition
2. Ballistic helmets

Collecting feedback from the military, our specialists are engaged in constant improvement of the range, using the highest quality and latest technologies.

Production capacities and volumes:

- bulletproof vests (body armor) - from 1,000 units/month. (with the possibility of increase, if necessary)
- ballistic helmets – 3,000 units/month. (all equipment and software were created by our specialists independently (!) - this makes it possible to constantly increase the volume of production by two times, within a month).

Our company has a wide network of partner buyers, so we are ready for challenges and large volumes of orders.

One of UKRTAC's flagships is the UT PROFI bulletproof vest.

- This unique model is the result of hard and painstaking work, constant development and improvement.
- Meets the best parameters of protection and comfort of fighters.
- Has an international quality certificate based on the results of testing in extreme conditions.
- Possible UT PROFI configuration: pouches, armor plates, side protection, backpack (carrier / assault backpack), groin protection, RPS - tactical belt system.

UKRTAC ballistic helmets

- Material - Kevlar® aramid fabric.
- Multi-size - the size is adjustable with the help of a suspension system and pillows.
- Convenient and high-quality suspension system.
- Helmets are equipped with standard fasteners for additional equipment (thermal imager, headset, etc.).
- Protection class of UKRTAC ballistic helmets - 2 DSTU 8835:2019 / IIIA, NIJ 0106.01

UKRTAC uses only the best original materials in its production
