

EXHIBITOR'S PROMOTIONAL PROGRAMME

Dear Publisher,

The main aim of the organizers of the fair is to present the exhibitors with the opportunity to acquire contacts with potential clients. In order to do so Kielce Trade Fairs offers to their partners the Exhibitor's Promotional Programme. Within this programme we offer our exhibitors the maximum benefits from the participation in the exhibition. One of the elements of this idea is to promote novel technologies and products. Therefore we offer you an opportunity of placing a free piece of information on novelties presented during the fair (products, technologies and services) in a specially designated part of the catalogue. Moreover each exhibition stand of the exhibitor who presents novelties will be specially marked and easily recognised by visitors. Finally the information on presented novelties will be passed on to newspapers and professional magazines and to the mass media. I strongly encourage you to promote novelties at the fair. If you would like to enter the programme please complete the below application form.

Novelty presented at the
International Fair of Technologies for Foundry METAL
HEAT TREATMENT
Non-Ferrous Metal Products ALUMINIUM & NonFerMet
and Recykling
24-26 September 2024
