

FAKTUM FURNITURE COLLECTION 2023

faktum

WELCOME!

ARPAD VAS
CEO

MATE VAS
Sales Manager

“Our first item was not even a branded Faktum piece. I made it for my son, who had been born at that time. Both projects turned out well...”
As parents, we know well what children need, and of course, we also know what is best for parents. This is how our company started in the early '90s. The founder, Arpad Vas, wanted the perfect solution for his newborn son, but he couldn't find it on the market, so he decided to solve this problem on his own. As family friends discovered his work, requests for his design started to come in and pile up. “Eventually we found ourselves making furniture...”. So, Arpad decided to create a company, dedicated to the comfort and safety of children.

As years passed, the company got bigger and more modern. As the demand for Faktum products grew, so did the technological background and the experience behind our experts and management. We started in a small, 40 m² rented workshop. Today we're producing more than 40 furniture collections with a range of over 600 types of products.

“We and our colleagues need to see more in our activity than the thousands of baby's cots sold, more than simply products we drill, machine, assemble and package, more than graphs with positive upsurges and occasional ups and downs; the ultimate goal is the carefree smile of every little baby spending his or her first few days and years using our furniture. And we need to see the parents, initially uncertain, preparing for the greatest venture of their life.”

INTRODUCTION

For almost 30 years, Faktum's mission has been to develop modern, safe, and stylish furniture for babies. Our company started as a small workshop, and through the years we became an international furniture manufacturing company of high standards and expert craftsmanship. As we keep learning new engineering solutions, we also keep improving our facility and technology.

Our motto „Quality, Safety, Harmony” describes every aspect of our work. We aim to create a comfortable and sleek environment for our loved ones, with a constant desire for progress. Through years of painstaking research and hard work, we became the leading brand of children's furniture in Hungary, and our name became a synonym of high quality and trustworthiness, as all of our products got the approval of TÜV safety standards. We also place high demands on health and environment, as we only use water-based paints and varnishes, and as we achieved the FSC certificate. For more information, visit our website: www.faktum.hu.

LOOP White & Oak

Simple and spectacular. The Loop range was designed with focusing on clarity: the lack of knobs and extra mechanisms grants a modern and safe environment for playful children. Drawers are equipped with built-in shock absorbers, guaranteeing us safe and quiet nights, just like the doors with soft close mechanisms. Pieces of this collection are a great choice in any coloured rooms, with their white fronts and sides, put in an elegant frame of Arwen Oak. The legs are made of solid beech wood.

Wardrobe XL • Wardrobe • Chest • Chest Extension
Bed 120x60 • Bed 140x70 • Wallshelf

LOOP Grey & Oak

Life is full of colours, why not experiment with them? The grey version of this range looks great in every environment. Blend in or stand out – the choice is yours. The Arwen Oak pattern gives a magnificent look with the grey fronts and side panels. The massive structures of 18 mm thick chipboards rest on solid beech wood legs. Built-in shock absorbers and soft close mechanisms make everyday use of this furniture range safe and easy.

COLETTE
Anthracite

COLETTE White

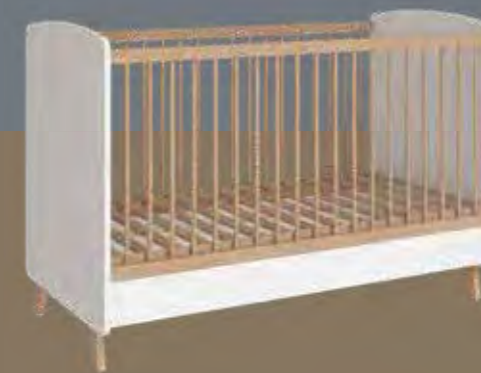

Elegance is something we all deserve, and children are no exception. This range is perfect for those who seek classic shapes but want modern solutions. Playful or serious? With Colette, both are possible. The decorative buttons and handles are made of solid beech wood, just like the legs. The design is a sleek combination of white and oak.

Wardrobe XL • Wardrobe • Chest • Chest Extension
Bed 120x60 • Bed 140x70 • Wallshelf • Wide Open Storage

PEAK
Natural Oak & White

This range was designed for those who like to save space: sliding doors allow us to cut corners in the nursery. If you have to be thrifty with cubic meters, or just want to have a spacious environment, this range is for you. The design is easy to fall in love with, as it gives a bright aura to any nursery, thanks to the matt painting of the sliding doors, which also makes them very easy to clean.

NEMO Caravelle

Nemo is pure, no-frills, sophisticated furniture assembled with high standards. The roomy storage spaces, the graciously smooth surfaces turn the baby's first room into a gorgeous home.

The Nemo Caravelle is well beyond the world of the traditional pieces of furniture: the Cream Oak furniture elements are framed by simple, white colour. This solution gives a special elegance for the collection. What is more, it is not pushy at all.

Drawer for Bed 120 • Drawer for Bed 140 • Wallshelf • Storage Shelf

STONE GLOSS
Cream Oak & White

This range will be what you are looking for. The sliding doors are incredibly easy to use and look awesome thanks to the high-gloss paint job applied to them. The plinth leg design provides stability and easy assembly. In this range, the changer extension is a universal solution, as it fits the chest and the cot bed as well.

STONE GLOSS
Cream Oak & White
COLLECTION

Wardrobe XL • Wardrobe • Chest • Top Changer
Bed 140x70 • 5 in 1 Multi Bed

A most practical design, for light-coloured environments. This range is a perfect space saver, thanks to its sliding doors and deep storage compartments, not to mention the combi cot that is an absolute winner on the market, thanks to its compact design. It's also quite excellent choice if you don't like the experience of looking for lost toys under the furniture, since the plinth leg design prevents anything from going under the storage units.

STONE GLOSS
Light Oak & White

CARDIFF
White & Oak

Feel the funky '70s with this Scandinavian-style range! Its most unique piece is the chest with the variable top segment - be either left- or right-handed, this piece is helping you with your most frequent everyday task. The tops and bottoms of oak blend with the lower fronts, while white fronts give a nice, stylish contrast to the whole picture. Every door and drawer open with push-open ejectors, so there is no need for handles.

FLIP Oak

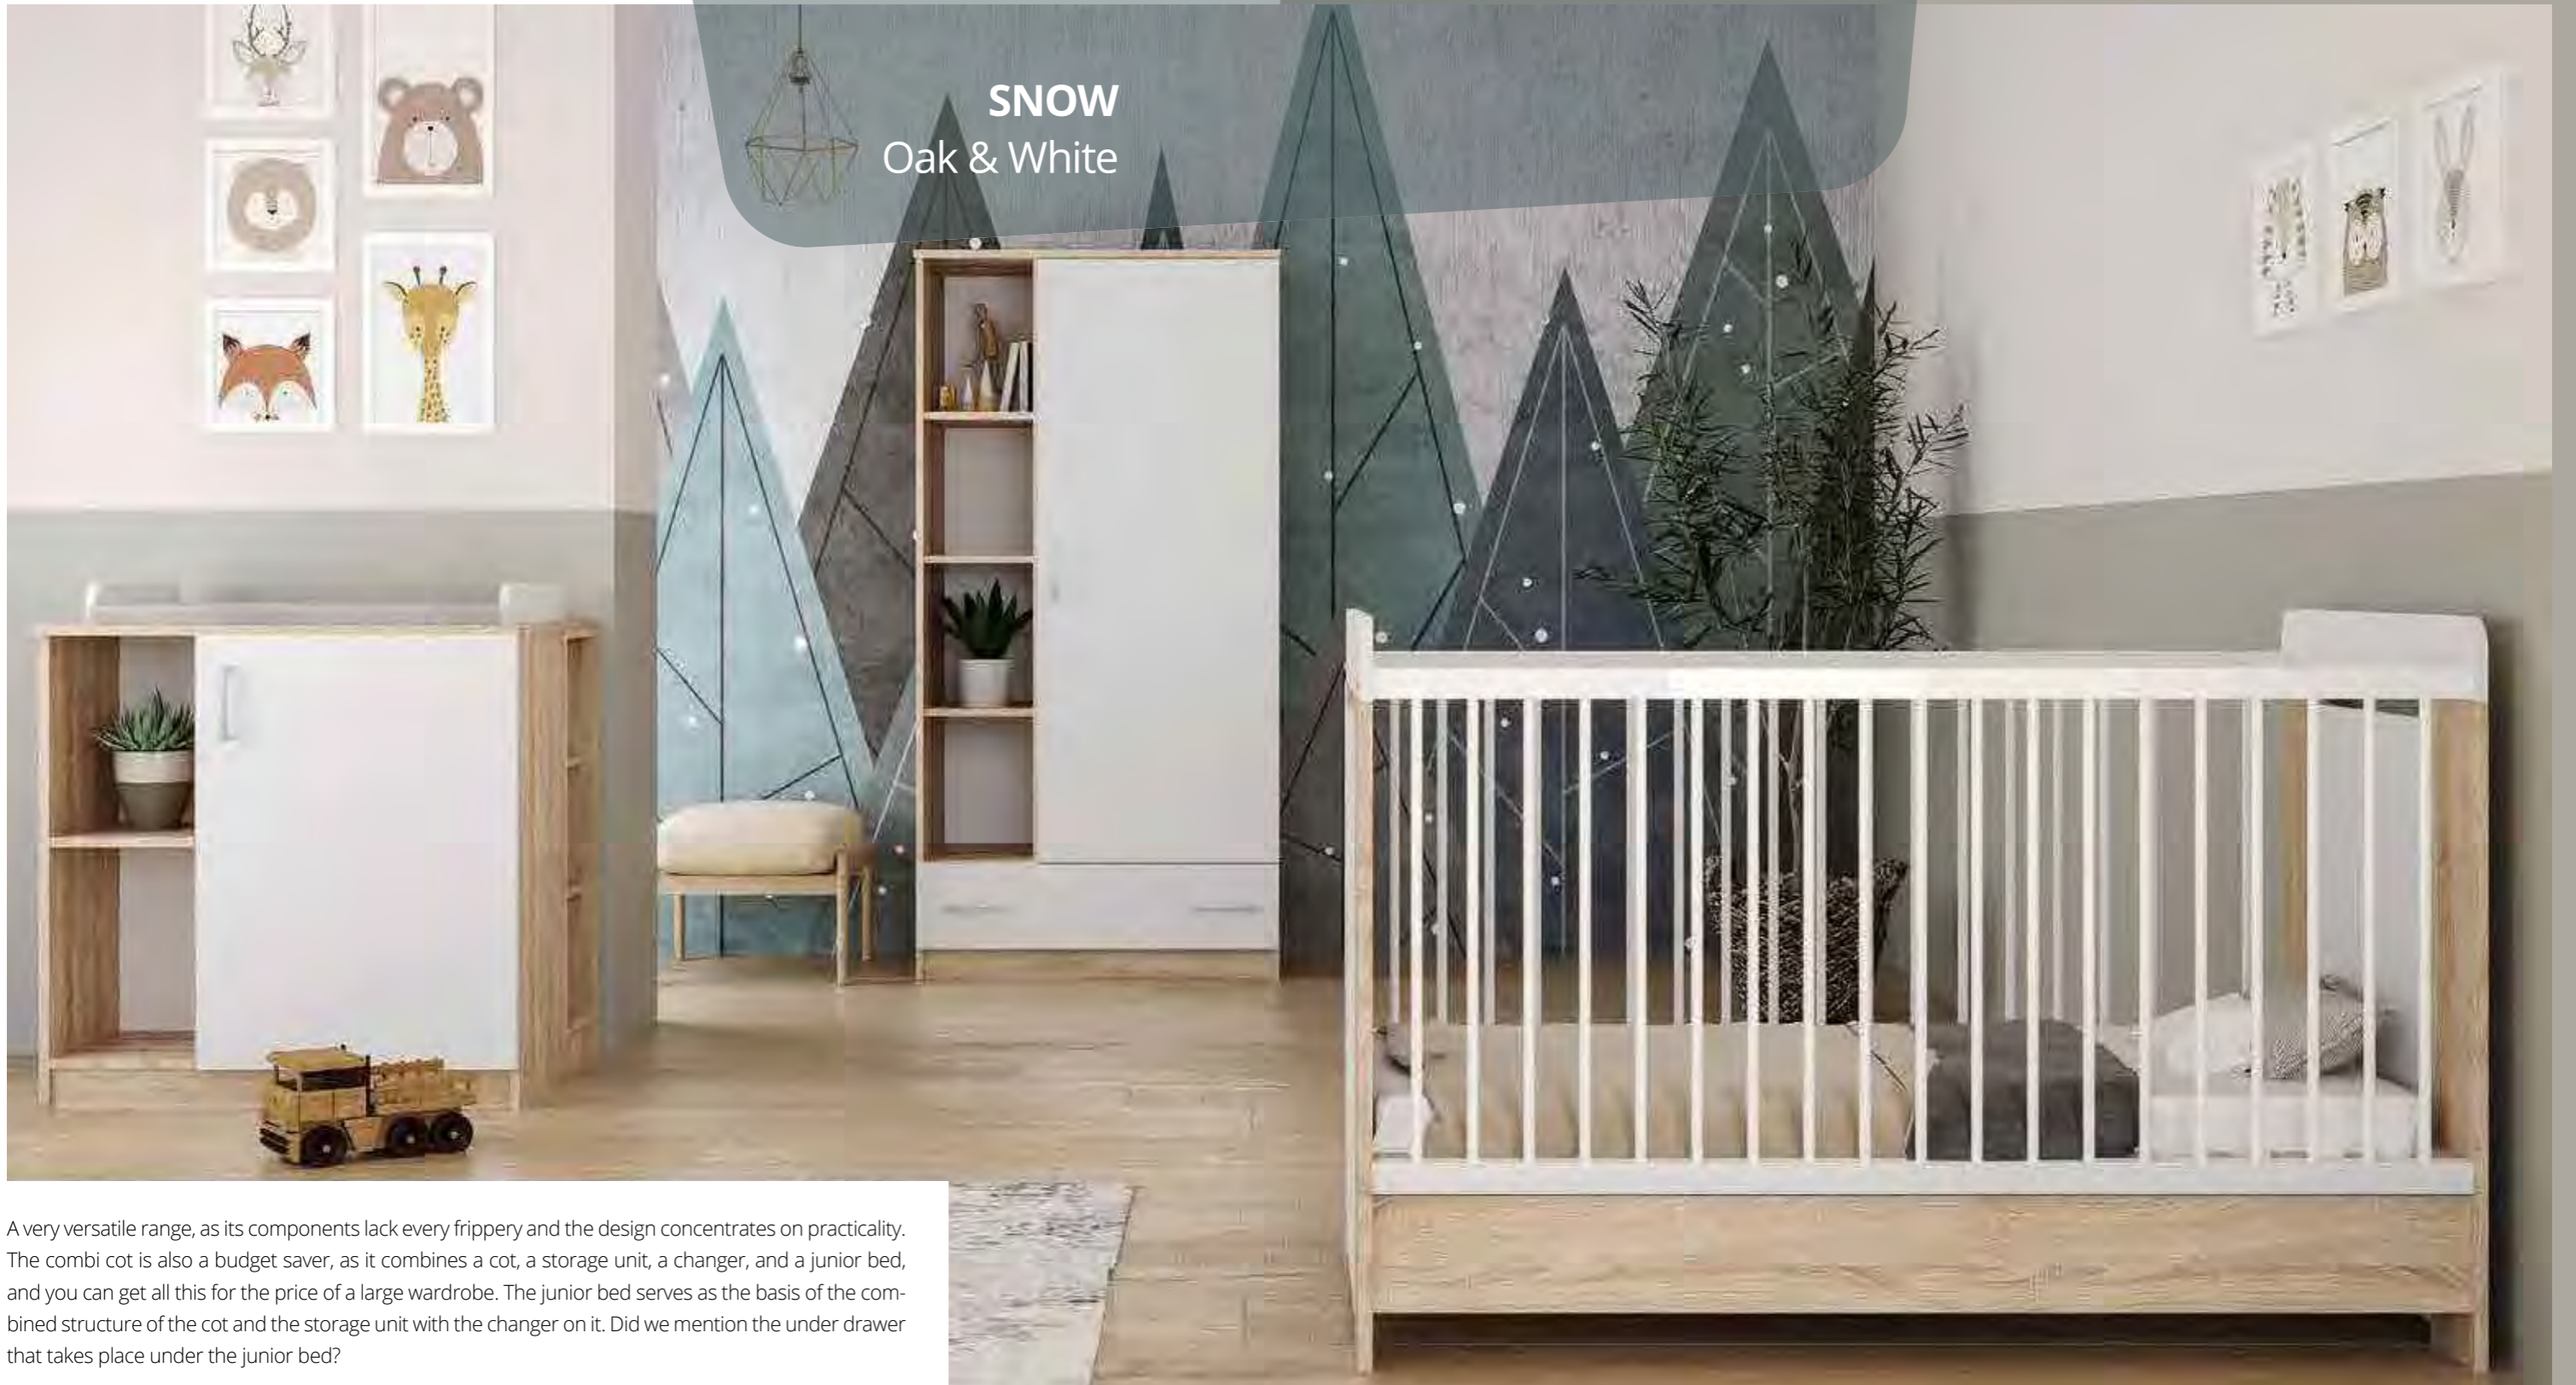

FLIP White

SNOW Oak & White

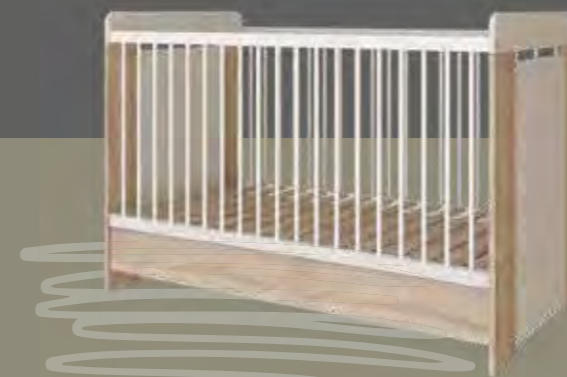

A very versatile range, as its components lack every frippery and the design concentrates on practicality. The combi cot is also a budget saver, as it combines a cot, a storage unit, a changer, and a junior bed, and you can get all this for the price of a large wardrobe. The junior bed serves as the basis of the combined structure of the cot and the storage unit with the changer on it. Did we mention the under drawer that takes place under the junior bed?

SNOW
Oak & White
COLLECTION

Wardrobe • Chest • Chest Extension • Storage Shelf
Bed 120x60 • Bed 140x70 • Drawer for Bed 120
Drawer for Bed 140 • 3 in 1 Multi Bed • Wallshelf

SNOW White

As children grow, their needs change, and this range is capable of adapting to these constantly changing needs. At the heart of the range is the 4-in-1 combi bed. One of our most popular solutions, these multifunctional pieces are both stylish, practical, and cost-effective. The Snow White collection is simple in design and trustworthy in functions.

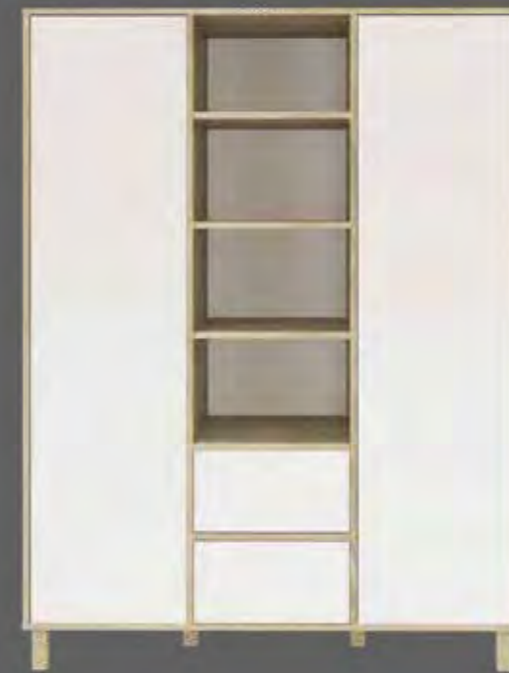

WING
Grey Oak & White

Sturdy structures with minimalist design. It's easy to find the perfect fit, no matter the room's colour since the white fronts look great in the Grey Oak frames. The built-in push-open mechanisms make the pieces easy to assemble and even easier to use. Safe and practical, but still looking good – what else is needed?

WING

Wardrobe XL • Wardrobe • Chest • Chest Extension
Bed 120x60 • Bed 140x70 • Wallshelf

WING
Grey Oak & Grey

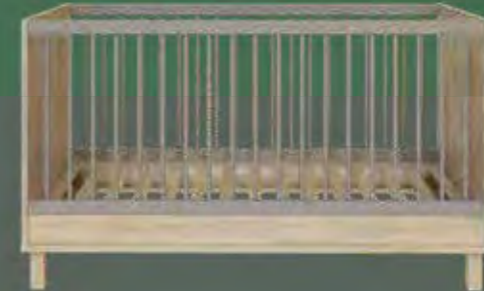

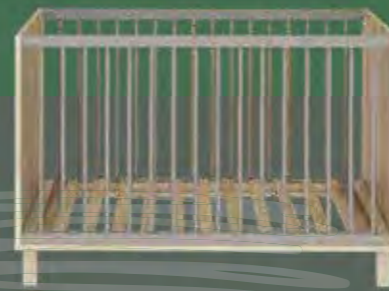

Another greatly variable design of this range. It is an excellent choice for those who think in a long term, as even older kids will love its look. Serious or playful, both can be seen in this range. Push-open mechanisms are integrated with the drawers' slides, which makes them easy to install and even easier to use.
