

**Your
Lionelo
layette**

lionelo
made by parents

Hello (future) mum!

How are you? We hope all is well.

Soon your family is going to grow bigger. This is why, to make you as well-prepared as possible, **we completed a layette for you.**

To begin with: A bag that fits everything you might need, and this is why we put it first.

Lionelo Ida bag

Fits more than you think! It is a universal, high-quality, functional bag with changing mat and practical thermal compartments for bottles of warmed milk. The bag also features attachment straps, thanks to which it can be easily attached to the stroller handle. It has been designed in a way that makes it perfect both as a hospital bag and everyday bag.

Lionelo Bamboo Blanket

Pleasant to the touch, a bamboo swaddle will be perfect from the first day of a baby's life. It will certainly be useful during the walks both in the summer (it cools gently) and in the winter (it warms the baby). The blanket also has other advantages: you can easily fit it into your bag and take out during the walk, whenever necessary. It is anti-allergic and antifungal.

Lionelo Bamboo Set nappies

Safe from the first day of life. Made of natural bamboo fabric, antibacterial, antifungal and hypoallergenic. They can serve the little one as an additional fabric for changing, bedsheet, towel and a cuddly toy.

Lionelo Twee Go breast pump

Your double relief. Powered by USB cable or electrical outlet, light and compact breast pump. When fully charged, it can be used for up to 90 minutes. The set includes: two milk bottles, two teats, two milk containers, two covered funnels, case, and charging cable.

Lionelo Thermup Go bottle warmer

Practical, charged via USB, mobile bottle warmer. You will certainly appreciate it when travelling and walking with your baby because you will now be able to warm the milk even in the car. What is also important, you do not need to take out the bottle, the baby can drink directly from the bottle warmer.

The bag is packed and everything is good and ready? Great. And what is next? Next comes the everyday life together – sometimes chaotic, but also full of excitement, and this means going on walks, putting your baby to sleep, rocking, family trips and adventures with slightly bigger equipment. We decided to assist you in choosing what's the best. **See what we have prepared for you.**

Lionelo Astrid carrier

Baby carrier is the essential element of the layette, necessary on your way home from hospital. Lionelo Astrid fits all types of cars and can be mounted in a rearward-facing position using universal seatbelts. Other features include an ergonomic handle and a practical canopy protecting against the sunshine. The carrier is completely safe, which can be confirmed by passed Tass International crash tests.

Lionelo Malin 3 in 1 cradle

Yet another product for special tasks: A cradle with an innovative horizontal swing system, baby bed and travel cot folded to a compact size, all in one. Perfect from the very beginning of a baby's life. Thanks to Malin 3 in 1, putting your baby to sleep and going on overnight trips will be much more enjoyable for the whole family.

Lionelo Mika 3 in 1 stroller

Making everyday life of a parent much easier! Mika is multipurpose and multifunctional, being a carrier, carrycot, and a stroller at the same time. It will be perfect both as a starter kit for a newborn baby and a comfortable stroller for a toddler. And, what is more, it folds quickly and can be carried on the shoulder to make climbing the stairs easier.

Lionelo Timon 3 in 1 bedside sleeper

You are together and apart at the same time – this is how the advantages of our baby bed can be summed up. It can be used independently or as a bedside sleeper until your child weighs more than 9 kg or starts to sit unaided. You can easily fold the bed to a compact size and take it on a trip (thanks to a bag with a handle included in the set).

Lionelo Babyline 8.2 baby monitor

Life is better with a baby monitor! Lionelo Babyline 8.2 is perfect not only during the day, but also at night. Rotating camera with a wide viewing angle lets you keep an eye on your child both at play and in the dark, when they are sleeping. Operating range of the device is 50 m indoors and up to 300 m in open space.
