

METAL & STONE

Designed for long-lasting reliability

Weiler's Toroflex line offers cutting and grinding tools for various applications with a strong focus on construction and metalworking. The broad product portfolio ranges from grinding and cutting wheels of multiple dimensions to flap discs.

Whether you want to cut, rough grind, or grind, these products will help you complete any specific job in the shortest time possible.

Weiler offers two Toroflex performance lines to make sure the needs of all users are met.

GREAT PRICE-PERFORMANCE RATIO AND PROVEN QUALITY FOR EVERYDAY USE

Find the right fit for your operation

PRO+ PERFORMANCE LINE

This high-performance series offers innovative cutting and grinding tools for the most demanding users. They offer the highest quality, aggressive cutting performance, and excellent service life within Toroflex product line.

PRO PERFORMANCE LINE

The line offers high-quality cut-off, grinding, and flap discs for professional use, especially in the construction sector, trade, or industry.
