

# **FRAID DISCHI** s.r.l.

**POLISHING WHEELS AND COMPOUNDS**

**Since 1958 the partner for finishing  
and polishing metals industry**

**[info@fraid.it](mailto:info@fraid.it) [www.fraid.it](http://www.fraid.it)**

## 50 YEARS EXPERIENCE

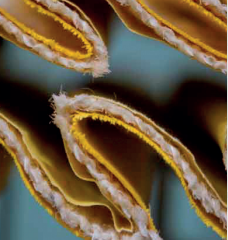

We are proud to be able to boast of two generations of activity in the **production of cotton and sisal industrial wheels**.

Each wheel is the result of a mix of **craftsmanship knowledge** typical of the province of Brescia and of innovation, in order to keep up with the times and with the market expectations.

In summary, we are able to offer our customers and anyone who wants to take relationships with our company, a continuous high level professional service, the result of more than decades of experience in the particular field of **production of disks for surface treatments**.

## CONSTANTLY INNOVATION

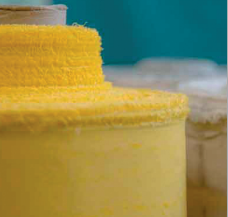

Fraid Dischi is always looking for new horizons of growing to keep up with all the innovations that the global market in the production of **wheels for surface treatments** offers today.

We try to find solutions for all the needs of our customers, by getting involved and, if necessary by creating new kinds of disks for the surface treatment.

Our inclination to **innovation**, in fact, has hallowed us in these last difficult years for the Italian economy, however to continue growing, pursuing business partnerships in new markets, spreading the brand Fraid all over the world; we are very proud of this result.

## PRODUCTION MADE IN ITALY

Our great strength is **the knowledge of Italian craft production**, always paying attention to offer to its business partnerships, products with very high quality at competitive prices.

Fraid Dischi srl, bases the way it operates on the knowledge of crafts production, whose principal objective its to offer very high quality disks, also taking care to the price, a factor that affects a lot in market mechanisms.

We lay the bases of our business on the immense wealth of **the Italian craft production knowledge** using selected raw materials and qualified skilled workers into the specific sector.
