## AVATAR X

---

The AVATAR X DRYSUIT is the modern alternative on the market. Thanks to its light weight it is ideal for many combat or reconnaissance and rescue applications. The lightweight and quick-drying diving drysuit is equipped with additional knee patches, an additional zipper covering the main dry zipper. Reinforcements in the crotch and elbows to maximize resistance to abrasion and tearing.

### Features:

- comfort and lightness
- fast drying process and simplified, ergonomic design
- breathable membrane for increased comfort while on the surface
- advanced, ergonomic cut that eliminates the underarm and crotch four-piece design for unrivalled suit mobility in this price range
- telescopic torso design for full body mobility and underwater adaptation

### Equipped in standard with:

- front plastic zip covered by an additional zip-fastened flap
- suspenders and crotch strap to fit the body properly
- Kevlar reinforcements pads on the knees
- Oxford Nylon reinforcements on the elbows and reinforced crotch pad to prevent abrasion
- neoprene insulation and latex neck seal with trimming options
- Santi SmartSeals® system
- 2 spacious technical pockets with bungee loops – easy access in dry gloves
- comfortable and flexible neoprene boots
- comes with handy, compact dry suit bag and neoprene hood
