RESCUE #219

Model #219 is designed for use by rescue groups, military, public safety units for all types of rescue, research, evacuation and training operations at sea and inland waters.

It has been developed with the support of experienced rescue and safety experts who have taken part in rescue operations in Poland and Europe for many years.

Features:

- available in XS – XXXL size range both woman and man version
- sleeve bottom, crotch, knees and elbows reinforced with Melco patches
- Melco patches on the buttocks to improve grip while sitting
- possibility to mount rubber gloves system
- certified SOLAS tapes on upper arms, pockets' flaps and hood

Equipped in standard with:

- build-in hood, in red colour, hidden in collar fasten with plastic zipper
- small pocket [17cm x 9 cm] with watertight zipper on right upper arm
- Smart Seals ring system for quick exchange of latex wrist seals
- latex neck seal
- plastic zipper in the front covered with pleat made of main fabric and fasten with Velcro
- knees and elbows protectors equipped with removable suspension patches located in Velcro closed pockets
- hood equipped with two light-reflective tapes to improve visibility
- two cargo pockets centrally located on the legs with Velcro-fastened flaps. Pockets are fitted with drainage holes. The right pocket equipped with a metal D-ring.
- inner adjustable braces with zipped pocket.
- 6 mm neoprene boots
- splash-proof bag
