

Agriculture Chain

High performance chains designed to withstand the most arduous agricultural and farming applications.

From the only manufacturer in the UK with a full range and large stock of Agriculture Chain.

Our Agriculture chains are heat treated and pre-tensioned with chromized pins and high interference fit between the pins and plates to ensure they withstand the toughest agriculture applications in British farming.

donghua.co.uk

We only have one standard. The Best.

Choose from our Agriculture Chain range:

- A type steel agriculture chain
- Baler chain
- CA type steel agriculture chain
- C type steel agriculture chain (with attachments)
- Combine chain (with attachments) – complete replacement chain kit for each make & model of Combine Harvester
- Harvester chain HSP chain Mark
- V chain Pintle chain (with attachments) SH series roller chain SP series roller chain
- Special steel agriculture chain
- S Type steel agriculture chain (with attachments)
- Walking tractor chain

Specific chain for the Agriculture sector includes:

Heavy Super Power (HSP) Chain: popular in the UK as it's incredibly robust with ultimate tensile strength up to 50 per cent higher than DIN standard chains; ideal for use on Balers.

Mark V Agriculture Chain: a range of chain zinc coated to provide added durability – anti-corrosive, waterproof and longer lasting than standard agriculture chain. Built in Donghua's UK workshop.

Pintle Chain & Attachments: designed with an open barrel, it cleans the tooth root and removes any lodged material during use minimising material build-up which causes blockages, corrosion and potential seizure.

Machinery used in farming and agriculture has to work hard and withstand tough conditions all year round. It's therefore important to regularly monitor signs of wear & tear including the wear of chain.

Manufactured in state-of-the-art facilities with precision tooling, delivering tolerances to within 0.5DIN.

Our UK headquarters has a 25,000 sq ft warehouse, technical workshop and testing laboratory.

UK network of Approved Product Partners, Stockists and Distributors.
