

# Welcome to Euro Machinery

# Top Quality Machines and Equipment

## Used Machines for recycling and plastic processing

Euro Machinery buy and sell both new and used machines.

Our headquarters are based in Denmark, with offices and services in Portugal, Spain, and Poland. More than 25 years of experience and a sale of machines and equipment to over 120 countries, have consolidated our status as a strong player on the market.

## Always searching for your best option

Our large inventory of machines is continuously updated with the latest and best machines coming up for sale in the market. Our team of highly professional, engaged, and positive people have their fingers on the pulse and is always searching for our customer's best option.

Therefore, we have returning customers and long-lasting business relationships world-wide. We speak among other languages English, Spanish, French, Italian, Portuguese, Polish, German, and Danish.

Euro Machinery sells factory to factory, meaning that most of the used machinery listed on our website can be inspected in production. This way our customers can see where the machines come from, how good they are, and assess the maintenance state.

Our customers range from new starting business to the largest corporations within the Recycling and Plastic Converting industry sector.
