About Us

DASCO Storage Solutions specializes in cutting-edge secure storage systems tailored for military personnel, offering flexibility with over 100 components. Easily customize, modify, and update your system to efficiently store weapons and gear. Collaborate with us for state-of-the-art solutions, suitable for armories, training rooms, and more. Explore our innovative components at dascostorage.com or contact info@dascostorage.com.

General Warranty

DASCO Storage Solutions warrants its products to be free from defects of workmanship and material for 15 years from date of possession. Our responsibility shall be limited to repair or replace without charge. We will be responsible for transportation costs if product is deemed under warranty. It is our option, however, to void this warranty if we feel the product has been subjected to mishandling or abuse or used for a purpose other than it was designed.

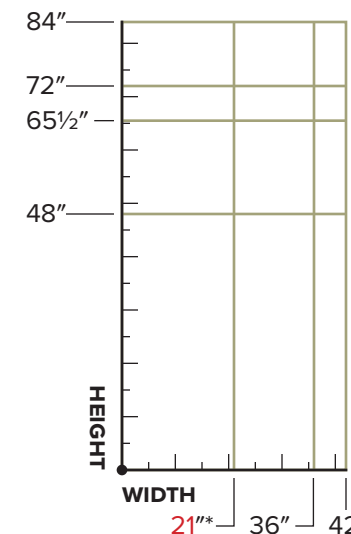

Bi-Fold Weapon Rack

Space-efficient and secure bi-folding doors that save 35% of floor space. Flexible installation and Universal Back Panel accommodate various weapons & ammo.

AVAILABLE DIMENSIONS

All lockers are 15" depth.

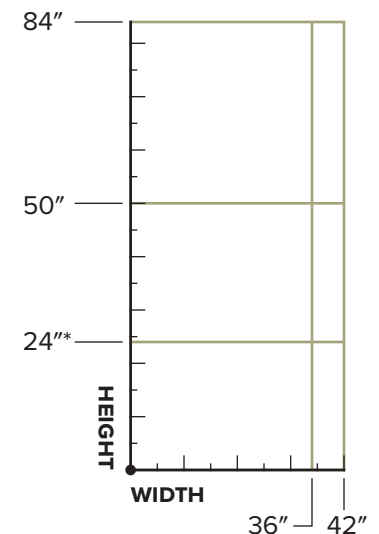

*Single-door only.

Expandable Weapon Rack

These racks offer unparalleled versatility with over 100 components that accommodate various weapons and accessories. Maximize your storage space by creating aisles with both single and double-sided configurations. Wall-mounted options are also available.

AVAILABLE SIZES

*Wall-mounted racks only.

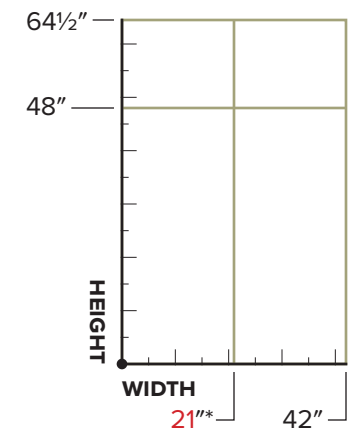

Swing-Gate Weapon Rack

Multipoint lock, heavy-gauge steel construction, and flexible configuration options. Pair with Stackable Weapon Lockers for comprehensive mixed-use storage.

AVAILABLE DIMENSIONS

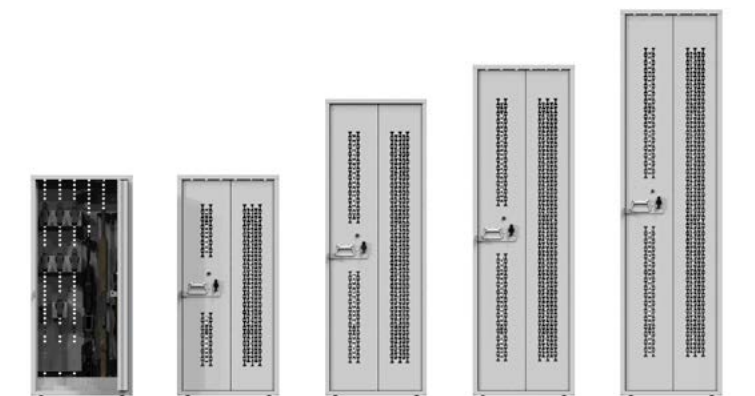

All lockers are 15" depth.

*Single-door only.

Single Door, Half-Width Racks

Our new half-width racks allow you to mix and match various weapon rack sizes and styles to create a unique storage system that caters to any bulk storage needs.

Extra Barrel Offset Storage

C9 Storage

Firearms that require extra barrels can be easily stored using our weapon-specific modular components. Arrange the components as pictured here to offset an arsenal of C9 rifles with their respective extra barrels.

Bayonets

Single or Multiple Bayonet Holders

Store boyanets individually or in bulk. Five-capacity holders are ideal for long-term space-saving, and single-capacity holders are great for kits in small personal lockers.

Bolts, Barrels, and Magazines

Drawer Inserts

Specialized inserts for the Bi-Fold Weapon Rack's roll-out drawers allow you to cleanly store and catalog batons or firearm bolts & barrels.

Magazines

Three-inch wide shelf & box components are ideal for keeping a bulk supply of magazines neatly arranged and stored.

Parachutes

A sturdy parachute bar component is available to organize your store of parachutes in any desired configuration. Maximize storage efficiency with a close offset arrangement or space them out for an aesthetic display.

Mobile Carts

Weapon Rack Castors

Select DASCO weapon racks are available with castors, allowing for flexible transportation options. Expandable Weapon Racks (pictured below) are ideal to maximize storage space. If security is a necessity, Bi-Fold Weapon Racks and Swing-Gate Weapon Racks provide a lockable option.

Mobile Weapon Carts

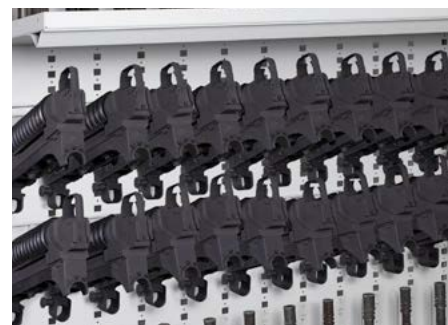

These carts are purpose-built solely for moving weaponry. Modular components allow the cart to be adjusted to accommodate different weapons over multiple trips. Can hold up to ## long guns and ## side arms.

M203 Launchers

Storage Pegs

Enables the storage of M203 Launchers in a cabinet, locker, or rack that features the Universal Back Panel. Arrange as many or as few launchers as required.

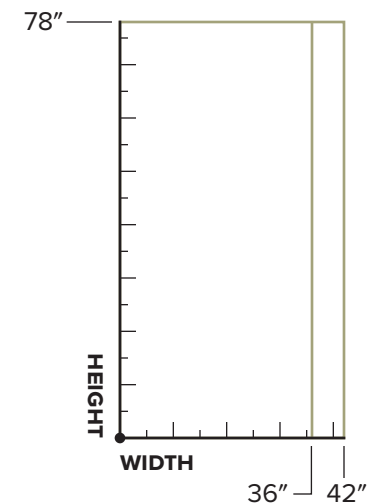

TA-50 Gear Lockers

Store everything you need from uniforms, gear bags, weapons, ammunition, boxes, and more. Perforated gates are ideal for ventilation and visual inspection and are secured with a multi-point locking mechanism. These lockers have been used for tactical storage all across North America.

TA-50 lockers are available in 1-tier and 2-tier designs. Each tier can come equipped with an upper shelf and/or hanger bar. A couple rows of the Universal Back Panel allow the addition of certain components as well, such as a lockable storage box.

AVAILABLE DIMENSIONS
All lockers are 15" depth.

*Single-door only.

Compact Mobile Aisle

Make the most of your storage space with racks and cabinets on rails. Effortlessly manoeuvre each section using the rotating handles to access whatever you need, whenever you need it.

Convert entire rooms into a compact storage unit with rows of cabinets that you can move on a whim. Perfect for long-term bulk storage.

Shipboard Solutions

Keep your firearms safe and secure even in the sway of a tumultuous sea. We offer storage components designed to keep weapons firmly in place no matter the size. In addition, our cabinets and racks are finished with rust-proof paint, ensuring substantial longevity aboard a military ship.

Security Straps

Specialized inserts for the Bi-Fold Weapon Rack's roll-out drawers allow you to cleanly store and catalog batons or firearm bolts & barrels.

Seismic Barrel Saddles

A hinged barrel brace that keeps firearms in place. Can be raised and lowered as weapons are stored or retrieved.

Grip-Flex Barrel Saddles

Components designed to delicately yet firmly secure the barrels of long guns in place using rubber clasps. Combine with security straps for ultimate stability.

C16 & Mk 19 Storage

Storage components that are specifically designed to accommodate grenade launchers. Sturdy lower supports and larger seismic barrel saddles keep launchers ready for deployment.

Carl Gustav & Mortar Storage

Components are available that are specifically created to house launchers and 61 or 80mm mortars. The Carl Gustav upper supports can be locked for an added layer of security.

High-security storage solutions
for law enforcement, militaries,
government facilities, public
institutions, and more.
