**ANTI-RICOCHET BULLETPROOF VEST AND MODULAR TACTICAL VEST**

**1st place in the portal-mundurowy.pl survey**

## BALLISTIC PLATES

### SCPL01-K3/K5A-T-W

Standard PN-V-87000:

K3 A - bullet 7.62x39 mm PS 7.9g, 720±15 m/s

K3 B - bullet 5.56x45 mm SS109 4g, 950±15 m/s

K3 C - bullet 7.62x51mm FMJS 9.6g, 840± 15 m/s

K5 A - bullet 7.72x51 mm AP 9.7g, 820±15 m/s

### SCPL PLATE K2-W-E

Standard PN-V-87000:

K2 - bullet 7.62 TT, FMJS 5.5g, 420±15 m/s

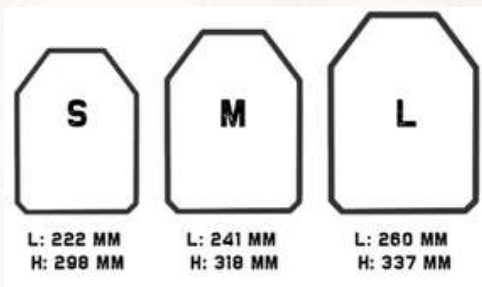

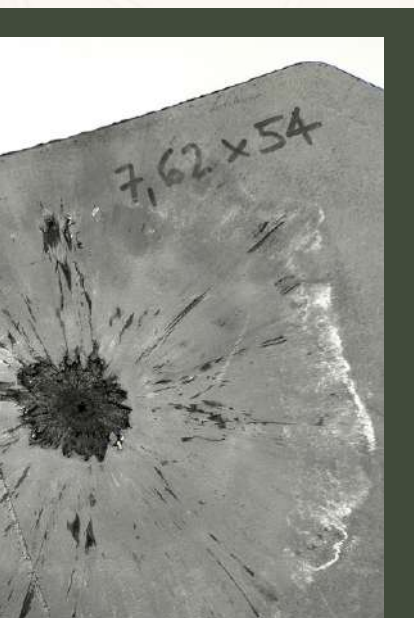

Standard NIJ 0101.06 type IIIA:

9MM FMJ RN bullet, 8.2g, 436 m/s 44 Mag JHP bullet, 15.6g, 436 m/s

K2 plate weight (size S) - 1.8 kg

- made of certified extra strong armor steel
- high hardness
- large protection area - 831.5 cm<sup>2</sup> (in size L)
- level of protection confirmed by a certificate from the Military Institute of Armament Technology
- anti-corrosion
- strong, uniform construction, does not lose protective properties after a fall or being dropped

all equipment available in sizes S to L (according to the SAPI standard)

## INNOVATIVE COATING WITH ANTI-RICOCHET EFFECT

innovation

The coating used in the plate absorbs and retains all fragments from a ricochet, eliminating the risk of injury from bullet fragments.

Additional coating applications:

- protection of the buildings against explosions and shrapnel (test: 50 pounds of TNT from 10 m – the wall with the coating remained intact),
- securing military and police vehicles against damage (spalling),
- increasing the durability of off-road vehicles – protection against stone impact, vibration and wear (up to 50%),
- protection of containers and tanks against corrosion and moisture
- can be applied to various substrates: steel, concrete, aluminum, composites

# MODULAR TACTICAL VESTS

Maximum protection and comfort of use:

- MOLLE/PALS system, allowing the vest to be adapted to the customer's individual needs
- Built-in carrier for ballistic plates in sizes S to L according to the SAPI standard
- Velcro® panels on the front and back for attaching additional equipment or markings
- Front panel with a two-part kangaroo pocket for a recorder and documents, a pocket sized for handcuffs, and 3 pockets for additional equipment
- Eyelets on the shoulders for radio cables
- Strong carrying handle and quick release system - allowing first aid to be provided in accordance with the TCCC procedure
- Waist bag - modular pocket for hanging on the vest

## HEAVY DUTY VESTS

- made of Cordura® 500D and Cordura® 500D laminate
- front and back pockets for SAPI standard ballistic plates in sizes S/M/L.
- Velcro® area for patches and emblems, evacuation handle on the back of the vest
- MOLLE/PALS system laser-cut in a special laminate, allowing the attachment of additional equipment, also on the shoulders
- full adjustment in chest circumference and height
- built-in zippered pocket on the front
- belt with MOLLE/PALS system on the outside and inside
- 3-magazine pouch for AR15/M4/AK-47 magazines, mounted with Velcro® and 2 Slick Clip buckles, laser-cut MOLLE/PALS or universal admin panel

Equipped with a 4-point quick release system, the side straps use ROC/80 buckles from the producer 2M, the quick release system on the shoulders is made of a webbing strap and Velcro®, thanks to which the rifle stock does not rest on the buckle while shooting and does not cause discomfort.

Accessories to choose from:

- Tactical backpack with MOLLE/PALS system, laser-cut
- Waist bag, Velcro® fastening
- Comfort shoulder pads
- Foldable bag with helmet carrying option

## KNIFE-RESISTANT VESTS

- Protection area of up to 0.55 m<sup>2</sup> – one of the largest in its class
- Effective knife-resistant protection confirmed by the Military Institute of Armament Technology tests
- NIJ 0115.00 Level 1
- A project created in cooperation with paramedics – maximum ergonomics and mobility
- The vest is made of original Cordura® that meets the requirements of the standard EN ISO 20471 and equipped with original Velcro® fasteners
- Wide range of adjustments – adapts to different user figures
- Full personalization possible (patches, prints, unit/rescuer identification)
- Includes a Cordura® carrying bag – resistant to damage and weather conditions

## OUR OFFER ALSO INCLUDES:

- certified ballistic steel
- production of metal parts according to the client's designs
- metal shooting targets
- weighted sports vests

We have our own design office, so we can adapt the design to your needs (shape, additional equipment, etc.).
