

# Seed/grain treating equipment SBI

**RADVILISKIS  
MACHINE  
FACTORY**

## Efficient | Precise | Mobile

Professional solutions for high-quality grain and seed treatment. **Suitable for all types of grain/seed.**

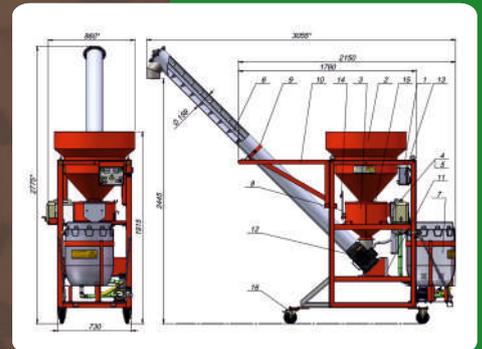

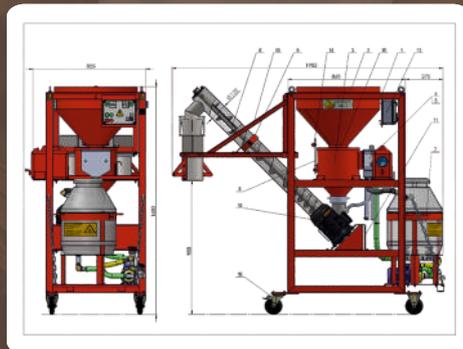

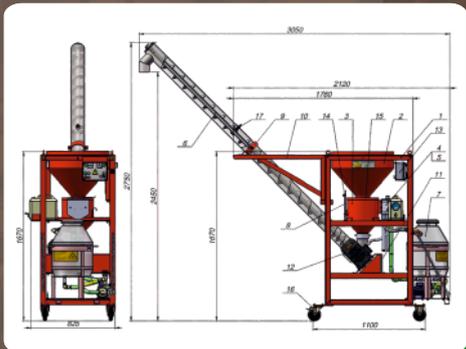

## MODEL RANGE

Model	Capacity	Liquid Tank	Liquid pump	Screw Conveyor	Integrated mixer	Optional Features
SBI-1	up to 4 t/h	50 L	0,37 kW	1.5 m or 3 m (1,1 kW)	✓	Dust extraction unit
SBI-2	up to 10 t/h	90 L	0,37 kW	3 m (1,5 kW)	✓	Dust extraction unit

## MAIN FEATURES

- **Precise mechanical mixing** of grain and liquid using weighing scales and dosing cups (no sprayers – avoids clogging)
- **Liquid circulation system** with **pump** ensures constant flow between **tank → dosing chamber → tank**
- **Stainless steel** dosing chamber, screw conveyors, and mixers – durable, hygienic, and easy to clean
- **Mobile design** with **heavy-duty wheels** for convenient movement

# Seed/grain treating equipment SBI

## Optional configurations:

- Extended screw conveyors (for trailer loading, etc.)
- Larger grain bunkers
- Dual liquid dosing systems

## ADDITIONAL EQUIPMENT

We manufacture **screw conveyors** for loading grain directly into SBI seed treaters:

Model	Length	Capacity	Suitable for
ST-3.2	3 m	4 t/h	SBI-1
ST-4.2	4 m	10 t/h	SBI-2

SBI Seed Treaters  
Reliable performance.  
Consistent coating.  
Professional results.
