

CUTLITE PENTA

XMMF

THE ITALIAN EXCELLENCE THAT SETS NEW STANDARDS

XMF

XMF is the compact solution through which Cutlite Penta brings the quality of Italian laser technology within reach of those looking to enter the world of laser cutting with a simple and reliable system, or to complement existing setups.

Equipped with brushless motors, rack and pinion transmission, and a robust frame, XMF integrates the same cutting head and Smart Manager Plus software found on Cutlite Penta's high-end systems, delivering high performance and outstanding reliability. Engineered for practical, day-to-day operation, XMF reflects Cutlite Penta's technical expertise and results-driven philosophy: a machine that evolves with its users, redefines the boundaries of laser cutting, and sets new standards within its market segment. Its functional design includes a front access door, rear loading with dual workbenches, and an electrical cabinet separated from the main structure, ensuring greater flexibility and ease of maintenance.

- **EVO cutting head developed in-house**
- **Fiber laser source up to 30 kW**
- **Rack and pinion motion system**
- **100% Made in Italy and CE-compliant**

LASER POWER
2.000 W
3.000 W
4.000 W
6.000 W
8.000 W
12.000 W
15.000 W
20.000 W
30.000 W

XMF MODEL	WORKING AREA
3015	3000 x 1500 mm
4020	4000 x 2000 mm
6020	6000 x 2000 mm
6025	6000 x 2500 mm
8025	8000 x 2500 mm

WORKING AREA UP TO
8000 x 2500 mm*

POWER UP TO
30 kW

* Measurements may vary according to the customer's needs. Contact us for more information.
