

**LOW-SWAP, HIGH-PERFORMANCE
SWIR, MWIR & LWIR LENSES
FOR HALE TO TACTICAL DRONE UASs**

WHATEVER YOUR NEEDS, WE'VE GOT THE LENS

MKS Ophir® products are designed and produced for the most advanced aerial optical systems, meeting the challenging requirements for small form factor, lightweight designs and low power consumption, all to enhance flight time and visibility even under extreme conditions.

Our product portfolio offers a wide range of IR complex lens assemblies with fixed, motorized focus and zoom lenses, providing a global solution for infrared imaging systems in UAS emerging applications.

Our in-house R&D team works in collaboration with customers to develop and design products meeting the Size Weight and Power (SWaP) constraints of UAS, with an unparalleled optical performance, for which we are known worldwide.

Key features

- High MTF performance
- Lightweight, compact, continuous zoom and fixed focus lenses
- Folded optic design for min volume utilization
- Low power consumption
- Suitable for a wide range of reduced SWaP applications
- Available coatings: High durability (HD), hard carbon (HC) and low-reflection hard carbon (LRHC)
- Fast FOV change
- Continuous zoom, with fixed F# and zoom maintained through the full zoom range
- Accurate thru-zoom bore sight
- Compatible with major SWIR, MWIR & LWIR detectors
- Diffraction-limited optical designs
- Athermal compensation
- CPU controlled via RS 485 or RS 232

About Ophir Infrared Optics

With decades worth of knowledge and experience, Ophir Optronics Solutions LTD., Infrared Optics, an MKS Brand (NASDAQ: MKSI), is a world-leading designer and manufacturer of high-performance IR thermal imaging lenses and optical elements for SWIR, MWIR & LWIR imaging. Using advanced technologies, innovative engineering, and design configurations, Ophir provides a global solution for homeland security, surveillance, defense and commercial applications: IR components and complex lens assemblies with fixed or motorized focus and zoom lenses.
