

UGV & AGV Systems

Interconnect, Cooling & EMI Protection

Miniature Circular, Micro-D, Nano-D & High-Speed Interconnects

Hyperboloid Power, Signal & PCB Connectors

Filtered Connectors & EMI Filter Inserts

Low-Loss Microwave Cable Assemblies

Thermal Management Systems & Card Retention

Thermal Management Systems & EMI/RFI Shielding

Autonomy Computing, Networking & I/O

Rugged Autonomy & AI Computers

Rugged Embedded & NVIDIA Based Computing

Computer-on-Modules & SBCs

Deterministic Ethernet & Precision Timing

Rugged Computing & Serial, Ethernet & Digital I/O

Vehicle Power Management

Power Conversion, EMI Filtering & UPS, VPX

Solid State Power Controller, Surge Protection (TVS) & Motor Control

Solid State PDU & Battery Charging

Vehicle EMI Power-Line Filters

Navigation & Vehicle Localization

Tactical-Grade MEMS IMUs & MEMS Gyroscopes

Resilient GNSS Positioning & Heading

Motion Sensing & GNSS/INS + RTK

Traction, Steering & Payload Motion

Compact Servo Drives

AC, DC & Servo Motors

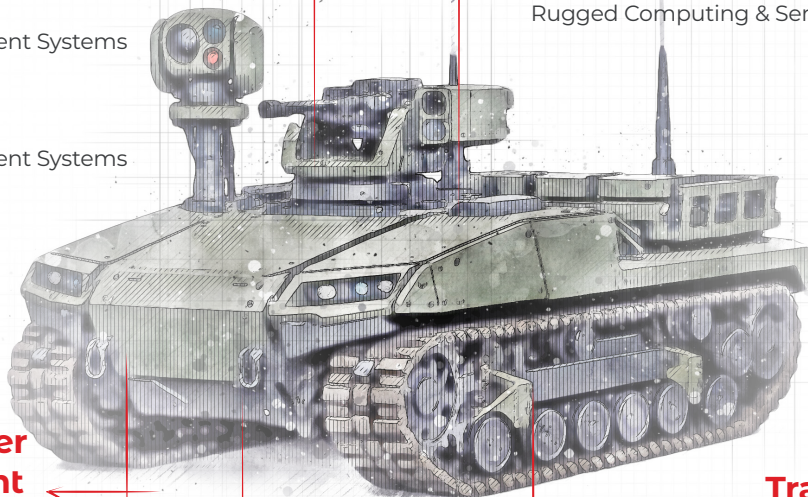

Motorized Traction Wheels

Direct Drive Torque Motors, Servomotors

Slip Rings & Rotary Joints

power

synqor.com

SynQor

Rugged, high-reliability power systems for demanding applications: DC/DC and AC/DC converters, EMI filters, PFC modules, UPS, and VITA VPX power solutions.

power

sensitron.com

Sensitron

Solid state power controllers (SSPC), TVS and motor controllers, MIL-qualified and space-level diodes, rectifiers, and transistors.

power

mpe.co.uk

MPE

High performance EMI/RFI power line filters, including TEMPEST and military vehicle solutions, engineered for demanding defence and industrial environments.

power

verteelektronik.com

Verte Electronics

Rugged military smart solid-state power distribution, battery charging systems designed for air, land and naval platforms.

interconnect

omnetics.com

Omnetics

Ultra-miniature Micro and Nano interconnects, high-speed connector systems and custom harnesses for space, defence, and other size-critical applications.

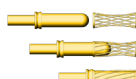

interconnect

iehcorp.com

IEH

Hyperboloid-contact connectors providing exceptional shock/vibration immunity, ultra-low contact resistance and over 100,000 mating cycles.

interconnect

insulatedwire.com

Insulated Wire

Precision microwave cable assemblies and interconnect solutions supporting frequencies to 135 GHz, with low-loss and phase-stable options.

sensors & navigation

safran-group.com

Safran Sensing Technologies Norway

Compact, tactical-grade MEMS-based IMUs and gyroscopes delivering precise inertial sensing for navigation, stabilization and guidance in demanding defence, aerospace and space applications.

sensors & navigation

septentrio.com

Septentrio

Anti-jamming, anti-spoofing GNSS receivers and modules delivering robust multi-constellation, multi-frequency positioning for autonomous and mission-critical systems.

sensors & navigation

xsens.com

Xsens

IMU, VRU, AHRs and GNSS/INS technology from chip-scale modules to rugged IP68 units, enabling precise motion and orientation sensing.

electromechanics

icpe.ro

ICPE

High-torque motion solutions including frameless torque motors, resolvers, servomotors, voice-coil motors, and limited-angle motors.

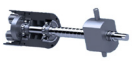

electromechanics

wat.com.tr

WAT Motor

Broad electric-motor and motion-control portfolio: AC and DC motors, servo motors, integrated servo systems and micro-DC motors.

electromechanics

linengineering.com

Lin Engineering

BLDC, servo, slotless and frameless motors, together with linear actuators, for compact, high-performance positioning solutions.

electromechanics

a-m-c.com

Advanced Motion Controls

High-performance servo drives for all type of motors, combining high power density, advanced servo control, and flexible communication options.

electromechanics

pan-link.cn

Panlink

Custom high-performance slip rings for power, signal, Ethernet, RF/coaxial and fiber-optic transmission, pancake, through-bore and miniature designs.

electromechanics

tennmax.com

Tennmax

Customizable EMI shielding and thermal management solutions, including form-in-place conductive gaskets, environmental seals, heat spreaders, and thermal-interface materials.

embedded computing

ecrin.com

Ecrin Systems

Rugged embedded computers, servers, switches, and AI edge platforms, available in VPX, cPCI and compact form factors for demanding environments.

embedded computing

diamondsystems.com

Diamond Systems

Rugged embedded computers, NVIDIA-based computing platforms, Ethernet switches and single-board computers for demanding defence and industrial systems.

embedded computing

sealevel.com

Sealevel

Rugged embedded computers and connectivity solutions, including serial, Ethernet, and digital I/O interfaces, as well as USB, PCI and PCIe expansion cards.

embedded computing

seco.com

SECO

SMARC, Qseven, COM Express and COM-HPC modules, and single-board computers.
