

DISCOVER CATIA SYSML V2 SOLUTION

THE MOST POWERFUL, INTEGRATED,
AND 100% STANDARD-COMPLIANT
SYSML V2 SOLUTION

The **CATIA SysML v2** solution is here, giving you access to the most powerful SysML v2 solution available.

Here's what you'll get:

100% Standard Conformance: full adherence to the OMG SysML v2 draft specification metamodel

- **Textual and graphical syntax in perfect sync:** the only solution on the market!
- **Dynamic views:** generate graphical and tabular views by specifying model queries
- **Extensibility & customizability:** leverage libraries, metadata, custom model-based styles, and diagrams
- **Storage:** Teamwork Cloud and **3DEXPERIENCE** platform
- **Model execution/evaluation:** requirements verification, parametric analysis, roll-ups & trade studies – all at your fingertips in a single tool
- **AI:** experience the power of generative AI
- **Requirements:** bring in requirements from ENOVIA Requirements, DOORS, DOORS Next Generation, and JAMA Connect
- **MagicLab:** explore SysML v2 models directly in your web browser
- **Open APIs (SysML v2 REST API, TWC API & Python Client):** integrate, automate, and analyze through CI/CD pipelines

- An integrated, user-friendly, thoughtfully designed product
- In progress:
 - Web editor | CAD, EE, manufacturing integration and more

**CATIA Magic/Cameo SysML v2
Community Edition**
For Learning and Teaching

- 100% Standard Conformance
 - Full adherence to the OMG SysML v2 specification metamodel
- Textual and Graphical Syntax in Perfect Sync
 - Instant two-way synchronization between textual and graphical representations
- Designed for Learning and Training
 - Model up to 500 major elements—ideal for practice and language exploration
- Free of Charge
