plasan
INNOVATE. DELIVER. PROTECT.

SURVIVABILITY DONE DIFFERENTLY

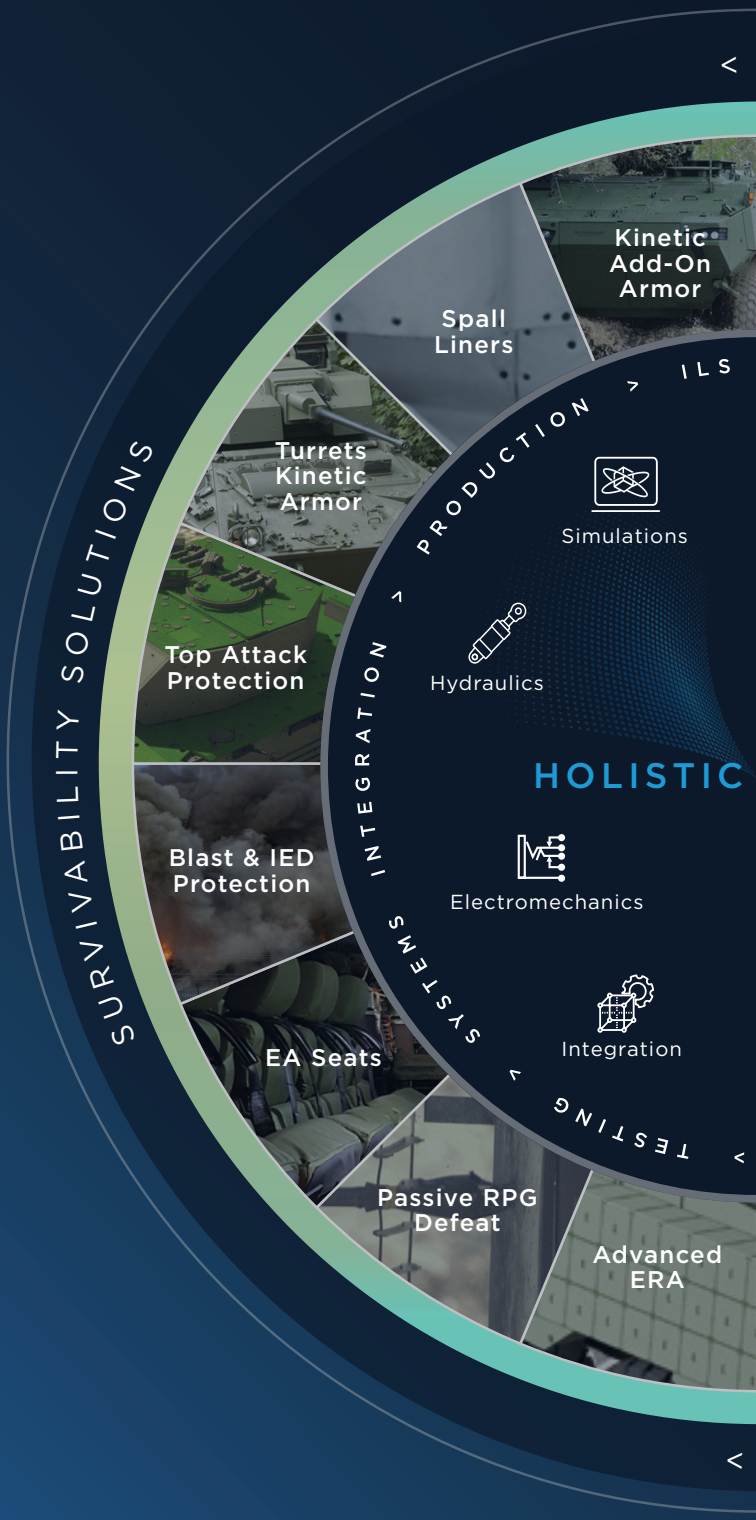

YOUR PROTECTION. OUR GOAL.

Plasan is a global leader in survivability and armor solutions, committed to protecting those who protect us, on land, at sea, and in the air.

With over 40 years of experience and worldwide operations, Plasan delivers end-to-end survivability, from integrated protection systems tailored for OEM platforms to in-house design and manufacturing of advanced armored vehicles.

Driven by innovation and a forward-thinking mindset, Plasan brings cutting-edge technologies to the battlefield, including the ATeMM (All-Terrain Electric Mission Module), a robotic platform that delivers energy, enhances mobility, and reduces logistical burden.

Renowned for its reliability, flexibility, and superior protection, Plasan is trusted by defense forces and industry partners around the world to meet today's evolving battlefield challenges and tomorrow's emerging threats.
